Sure your Grand Vitara is a good looking car with its bold tires planted firmly on the road. But why not kick up a little dust in the neighborhood and equip it with additional alloy wheels available in different sporty designs or a cool cover for the spare tire. And don't forget a wheel lock kit to deter thieves from taking off your newly embellished wheels.

# Protection

A lot of thought has gone into making the Suzuki Grand Vitara a well protected car, which is a reassuring feeling off- and on-road. But since protection has various facets, you will find lots of useful suggestions on these pages to shield you and your Grand Vitara against many imponderables on your way. From bumper protection sets to touch-up-paint sets that make these nasty little scratches disappear. But also from fog lamps to reversing aid sensors. We have thought of everything so that you don't have to.
